Solid Hard Rock Maple

For a clean, fresh style, our solid maple table tops are a go-to favorite. Its light, creamy color and smooth, subtle grain is equally well-suited for casual and upscale spaces, especially with a myriad of options for customization. Maple is a highly durable option, so you can be confident it will look equally fabulous for its first and five thousandth use. The often-used sapwood has a crisp, white hue accented with mineral streaks and pitch fleck, for just a touch of reddish-brown tinge. Staining maple tends to bring out its mineral streaks, enhancing their appearance beautifully.

Made to order in any shape and size. Stain color per customer specifications.
