Solid Red Oak

Whether your space is traditional or contemporary, solid red oak table tops will become a staple in your design. Considered one of the most popular choices for hardwood in the U.S., red oak delivers outstanding value by providing a durable, handsome surface at a relatively moderate price. The light and medium brown hues of the heartwood are accented by its reddish cast, while the paler sapwood makes for a complementary — but surprisingly subtle — addition. The straight grain of red oak has a coarse, irregular texture for a table top that has both visual and tactile interest.

Made to order in any shape and size. Stain color per customer specifications.
